The standard wiring colours in the UK are (as of 2006) the same as elsewhere in Europe and follow international standard IEC 60446. This colour scheme had already been introduced for appliance flexes in the UK in the early 1970s, however the original red/black colour scheme recommended by the IEE for fixed wiring was retained until 2006, albeit with change to a green/yellow striped earth in 1976.

I know Lenny said there are symbols in the back of the OSG, but they are very basic and incomplete (not even the standard symbol for a DB). I have searched everywhere for a cheap electrical installation design package - but they are either non UK, micky mouse, or £1000.00 plus. Any help appreciated.
