Has anyone successfully replaced a Calira EVS 15/12 charger that sits under the dash of a 93 Globetrotter with something more modern ? I have a constant 100mA discharge from the Calira unit which kills my leisure battery after a week or so. When I open it up and twist one of the pots on the PCB a relay clicks off and the 100mA is gone, but then

The Calira 30/20 and 38/20, both 20amp chargers, will support a battery bank no greater than 200Ah maximum. Bear in mind that the Calira range also charge the Starter Battery so an allowance must be made for this as well. The earlier Calira chargers like the 17/12, is only a 12amp charger, so will support only 120Ah, including the Starter battery.

The Longman Academic Reading Series is a five-level series that prepares English language learners for academic work. The aim of the series is to make students more effective and confident readers by providing high-interest readings on academic subjects and by teaching them skills and strategies for effective reading, vocabulary building, note-taking, and critical thinking. The series also encourages students to discuss and write about the ideas they discovered in the readings, making them better speakers and writers of English as well. Features Readings based on academic sources -- Every reading in the text focuses on an academic subject and is chosen with the intent of providing different and intriguing perspectives on the theme. Multiple reading genres -- Readings come from a variety of sources or genres, from textbooks to on-line articles, and are written by a variety of experts from widely different fields. Explicit academic skills -- From critical reading to vocabulary building, notetaking and critical thinking, the Longman Academic Reading Series provides students with a holistic approach to effective reading. Corpus-Informed approach to vocabulary (AWL) -- Students build vocabulary and acquire skills that will help them become more confident and successful in preparing for their academic work.

Korean: A Comprehensive Grammar is a reference to Korean grammar, and presents a thorough overview of the language, concentrating on the real patterns of use in modern Korean. The book moves from the alphabet and pronunciation through morphology and word classes to a detailed analysis of sentence structures and semantic features such as aspect, tense, speech styles and negation. Updated and revised, this new edition includes lively descriptions of Korean grammar, taking into account the latest research in Korean linguistics. More lower-frequency grammar patterns have been added, and extra examples have been included throughout the text. The unrivalled depth and range of this updated edition of Korean: A Comprehensive Grammar makes it an essential reference source on the Korean language.

Comprehensive yet simply-written, this text provides a classical treatment of the mechanics of particles and rigid bodies, and contains nearly 200 examples and solved problems. The solved problems are supplemented by many more unsolved ones and revision questions at the

end of each chapter. Exposition emphasizes the analogy between certain aspects of classical mechanics and quantum mechanics. The last chapter is devoted to non-linear oscillatory systems. Topics covered include the Lagrangian formalism, the Hamiltonian formalism, decay and scattering processes, kinematics and dynamics of rigid body motion, the special theory of relativity, relativistic classical mechanics, continuous systems and classical fields.

The complete works of one of England's greatest Edwardian writers Saki is perhaps the most graceful spokesman for England's 'Golden Afternoon' - the slow and peaceful years before the First World War. Although, like so many of his generation, he died tragically young, in action on the Western Front, his reputation as a writer continued to grow long after his death. His work is humorous, satiric, supernatural, and macabre, highly individual, full of eccentric wit and unconventional situations. With his great gift as a social satirist of his contemporary upper-class Edwardian world, Saki is one of the few undisputed English masters of the short story and one of
