For bodacious, bragging-rights barbecue that's easy to master in your backyard smoker, look to Texas! Among the proud barbecue traditions in the United States, from the Carolinas to Memphis to Kansas City—whether spelled barbecue, barbeque, bar-b-q, BBQ, or just Q—none is prouder, more deeply flavored, or rich in tradition than Texas Q. Texas barbecue is best known for beef; and beef brisket in particular, the signature dish that has been celebrated over the years by such legends as Taylor's Louie Mueller and Houston's Jim Goode, as well as by modern-day wunderkind Aaron Franklin in Austin. Cheryl Alters Jamison, co-author with her late husband Bill of the definitive Texas Home Cooking and the original bible for backyard smoke-cooking, Smoke & Spice, knows her brisket backwards and forwards and offers several delectable recipes in this exciting book. Cheryl also knows that there's more to Texas barbecue than brisket. Among the more than 100 recipes in these pages you will find loads of ideas for other cuts of beef, as well as for chicken, pork, lamb, fish and other seafood, and vegetables, each infused—via rubs and mops and sauces and spices—with robust, distinctive Texas flavors. Here, too, you will find stunning

Read Free Ducane Gas Grill Manual

preparations from outside the Anglo-American beef-and-brisket tradition, from the oft-overlooked Mexican-American, African-American, Eastern European immigrant, and Asian immigrant barbecue styles created by the people who make modern Texas so diverse and fascinating. For blue ribbon brisket and a whole lot more, this is a barbecue book you will use, and use again, for years.

Now Steven Raichlen's written the bible behind the Barbecue! Bible. A full-color, photograph-by-photograph, step-by-step technique book, "How to Grill" gets to the core of the grilling experience by showing and telling exactly how it's done. With more than 1,000 photographs and lively writing, here are over 100 techniques, from how to set up a three-tiered fire to how to grill a prime rib, a porterhouse, a pork tenderloin, or a chicken breast. There are techniques for smoking ribs, cooking the perfect burger, rotisserieing a whole chicken, barbecuing a fish; for grilling pizza, shellfish, vegetables, tofu, fruit, and s'mores. Bringing the techniques to life are over 100 all-new recipes -- Beef Ribs with Chinese Spices, Grilled Side of Salmon with Mustard Glaze, Prosciutto-Wrapped, Rosemary-Grilled Scallops -- and hundreds of inside tips.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

From a journalist on the frontlines of the Students for Fair Admission (SFFA) v. Harvard case comes a probing examination of affirmative action, the false narrative of American meritocracy, and the attack on Asian American excellence with its far-reaching implications—from seedy test-prep centers to gleaming gifted-and-talented magnet schools, to top colleges and elite business, media, and political positions across America Even in the midst of a nationwide surge of bias and incidents against them, Asians from coast to coast have quietly assumed mastery of the nation's technical and intellectual machinery and become essential American workers. Yet, they've been forced to do so in the face of policy proposals?written in the name of diversity?excluding them from the upper ranks of the elite. In An Inconvenient Minority, journalist Kenny Xu traces elite America's longstanding unease about a minority potentially upending them. Leftist agendas, such as eliminating standardized testing, doling out racial advantages to "preferred" minorities, and lumping Asians into "privileged" categories despite their deprived historical experiences have spurred Asian Americans to act. Going beyond the Students for Fair Admission (SFFA) v. Harvard case, Xu unearths the skewed logic rippling countrywide, from Mayor Bill de Blasio's attempted makeover of New York City's Specialized School programs to the battle over "diversity" quotas in Google's and Facebook's progressive epicenters, to the rise of Asian American activism in response to unfair perceptions and admission practices. Asian Americans' time is now, as they increase their direct action and amplify their voices in the face of mounting anti-Asian attacks. An Inconvenient Minority chronicles the political and economic repression and renaissance of a long ignored racial identity group?and how they are central to reversing America's cultural decline and preserving the dynamism of the free world.

A collection of more than seventy simple, delicious recipes for salads and sandwiches

It's time to put a new spin on this classic backyard grilling staple with some advice from the experts in Kebabs. These grillers traveled the

planet and found the best skewered meals it had to offer. Everyone loves grilling up kebabs, but it's easy to fall into the mushroom, pepper, chicken/beef rut. In *Kebabs*, Derrick Riches and Sabrina Baksh take this quick and easy grilling method for a brand new spin. They traveled the backroads of the Barbecue Belt and studied street-food stalls where skewered, grilled foods are most famous, like Greece, Turkey and the Middle East, India, and even Japan (yakitori) and France (brochettes). There are ample recipes for beef, chicken, fish and seafood, vegetables, and even fruit, plus vegan substitutions are included for meat recipes. *Kebabs* includes plenty of technique guidance, too. Are metal or wood skewers better for grilling? Do you really need to soak wooden skewers before cooking? Not to mention a myriad of rubs, sauces, and mops that make kebabs optimally flavorful and moist, *Kebabs* makes backyard grilling more globally adventuresome, and flavorful, than it's been before -- all with minimal prep time and effort.

Just about anyone can grill a burger or steak without a cookbook, but rotisserie grilling is tricky. The *Rotisserie Grilling Cookbook* is your secret weapon. With everyday grilling, most people cook things with roughly even thickness and they can tell when the meats are done just by eyeballing them. Consider something bigger, like a leg of lamb, a whole turkey, or a full pork shoulder, and you have a problem--most grills will completely char the outside long before the inside is cooked to a safe temperature. The solution: get a rotisserie. The *Rotisserie Grilling Cookbook* shows how to set up, maintain, use and troubleshoot a rotisserie spit. It includes 105 recipes to expand your outdoor cooking repertoire, including a dry-brined Thanksgiving turkey, a whole country ham for other holidays, a whole chicken, duck, game hens, and big cuts like a beef ribeye roast or a leg of lamb. Beyond the meat recipes that are the core of the book, it includes rubs, glazes, and mops that are specifically crafted for long, slow cooking over a rotisserie, and even some ideas, like a spit-roasted whole pineapple, from beyond the world of poultry and meats.

The Pulitzer Prize–nominated author of *Little Big Man* returns with perhaps one of his most imaginative alternate realities yet: a matriarchal society. Women reign supreme in the not-so-distant future, where Georgie Cornell has no choice but to wear the high heel shoe on the other foot. Swept into the chaotic world of publishing, he is at the mercy of his female bosses, especially if his pencil skirt is an inch too short. Georgie only has one male coworker he can lean on for a bit of support, and his friend Charlie's fascination with gender roles borders on the scandalous for Georgie's taste. Still, when Georgie loses his job it's Charlie he turns to for comfort. Spilling a drink on his expensive dress, he has no choice but to wear the women's clothes Charlie keeps in secret on the way home. The simple journey quickly turns chaotic when Georgie is taken in by the police for the crime of being a transvestite. A prison escape is only the start of this piercing, insightful, and prescient look at gender norms. "Imagined with such ferocity and glee that we assent to it almost in spite of ourselves . . . A brilliant accomplishment by one of our best novelists." —The New York Times Book Review
