However, as you'll eventually discover, the topic of studio microphones is a pretty huge subject. Which is why I've actually dedicated an entire chapter of this website to just that.

The 9 Home Recording Studio Essentials for Beginners

Audio mixing is the process of taking recorded tracks and blending them together. Tracks are blended using various processes such as EQ, Compression and Reverb. The goal of mixing is to bring out the best in your multi-track recording by adjusting levels, panning, and time-based audio effects (chorus, reverb, delay). The aim is to sculpt your arrangement to make sense of all your tracks in relation to each other.
