Gross Motor Skills - Autism Educators

Goals & Objectives for Gross Motor Skills in Young Children Written by Erica Loop 26 September, 2017 Gross, or large, motor skills include the strength and abilities of big muscle groups such as coordination, balance and agility.

Goals & Objectives for Gross Motor Skills in Young ...

I often say, think of a rainy day vs. a sunny day for recess. Gross motor is what they'd do on a sunny day (playground, running, jumping, swings). Fine motor is what they'd likely do for indoor recess (puzzles, games, coloring). However, many get confused between the differences between fine motor IEP goals and ADLs (activities of daily living).

{Fine Motor Skills} 50 IEP Goal Ideas for all ages. | A ...

An ideal IEP addresses all areas of the child's needs, and includes several goals and objectives to focus on all those areas, including communication, fine motor development, sensory integration needs, academics, and gross motor skills if needed. If your child's IEP only includes speech and language goals, look back at his or her Multi-Factored Evaluation to see what other needs were identified, and ask for those to be included in the IEP goals and objectives.

IEP Considerations - Apraxia Momma Bear

The following IEP goals would be considered appropriate for that purpose. The listed items are meant to offer guidance to Individual Education Program teams. The areas of development that may be covered on a preschool IEP are: cognitive, gross motor, fine motor, speech/language, adaptive, and social skills/behavior.

Iep goals for social skills - gilesrichardsonphoto.com

The goal is to work on skills that are difficult while maintaining control and keeping good form. So, hopping on one foot with arms flailing and body leaning all over the place, just to go faster, kind of defeats the purpose! Incorporate more difficult skill builders like the following:
