This book examines how payment systems, innovation policies and human resource policies need to be modernised so that OECD health systems will continue to generate improved health outcomes in the future at a sustainable cost.

This book examines how payment systems, innovation policies and human resource policies need to be modernised so that OECD health systems will continue to generate improved health outcomes in the future at a sustainable cost.

Read Book Health Reform Meeting The Challenge Of Ageing And Multiple Morbidities

Chronic conditions such as arthritis, heart disease, and Parkinson disease are the principal cause of all sickness and death in the United States and represent the vast majority of health care expenditures. Although we now live in a world dominated by chronic conditions, health care is still organized around a commitment to treating acute illnesses. *Meeting the Challenge of Chronic Illness* examines current deficiencies in chronic illness care and explores ways to improve it. Addressing the challenges of shifting from the primacy of acute illnesses to the predominance of chronic conditions, the authors identify the components necessary to reorganize and reform health care: properly prepared health care workers; involved patients and families; appropriate use of new technologies, especially information systems; an appropriate role for prevention; and the creation of funding approaches that will provide necessary incentives. This book calls on policy makers, health care providers, and educators to address one of the greatest challenges facing the health care system.

"This book should be required reading for all who work in care settings and the text used for leadership and health care administration courses in colleges....Farrell's personal journal is as compelling as a good novel, except it is nonfiction! You want to laugh, cry, scream, and shout halleluiah."---Joanne Rader, R.N., B.S.N., M.N., Nurse Consultant, Rader Consulting "The pages of this toolbox will be dog-eared from use. No more excuses! This works!"---Rose Marie Fagan, Co-founder and Founding Executive Director, Pioneer Network "Nursing home leaders from the bedside to the boardroom need a `field guide' to help them make critical

decisions and this book fills the gap."---Robyn Stone, Dr, PH., Senior Vice President for Research, LeadingAge, Washington, D.C. Whether your care facility is flourishing or floundering, its success depends on what you do as administrator, director of nursing, or other leader. Your decisions and actions can improve staff performance and ensure high-quality care. The organization that prospers has staff who know you care. Based on the authors' abundant skill in guiding hundreds of nursing homes through organizational transformations, this book gives you the tools and strategies to achieve stable staffing, optimal care, and high census, and to become a leader in a thriving nursing home. Read one administrator's compelling account of a year making a difference in his nursing home, followed by elucidating examples, advice, and wisdom that come from decades of first-hand experience working with long-term care facilities. This book is an essential resource for nursing home owners and corporate staff, administrators and directors of nursing, and all those committed to helping long-term care organizations to be better places to live and work.
