This text offers an up-to-date view of the dynamic nature of contemporary psychology. The authors build a strong foundation in the fundamentals of psychology while featuring the most innovative contemporary research. With plenty of supportive pedagogy, experiments are explained in detail, and charts and figures add to an understanding of the results. The book offers an integrated biological orientation, a trend that is changing the way psychological topics are viewed, exemplified by the coverage of bio-evolutionary research.

Instructors have come to know that they can rely on this textbook to provide a critical analysis of the major issues in historical and contemporary psychology in a manner that students find engaging and comprehensible.-Pref.

do not measure up, twisting themselves into knots to fix problems no one else can see. The Power of Women from award-winning and bestselling psychologist Susan Nolen-Hoeksema shows women how to break this cycle- by discovering and utilizing their unique psychological strengths. Drawing on original research and the instructive stories of real people, Nolen-Hoeksema identifies the skill sets that women, based on their biology and social roles, bring to challenges: - Mental strengths, such as the instinct to manage scarce resources - Identity strengths, which maintain strong values under pressure emotional strengths, such as anticipating the effects of decisions relational strengths, with an emphasis on win-win solutions Combined, these strengths give women a powerful ability to lead during transformational times. She then provides hands-on assessments for pinpointing strengths with the most relevance to a problem, exercises for building strengths, and inspiring examples of women's inventiveness, resilience, and sheer determination. This revolutionary book of self-improvement gives women the tools to hone their skills as entrepreneurs and managers, mothers and wives, mentors and community leaders-and as individuals pursuing their talents and dreams.
