Eventually the single overhead cam

That ' s why, in 1972, Honda released  
the CB350 Four, aka ' CB350F, '  
after 1971 ' s CB550 Four,

Motorcycle Classics reports. Its 347cc  
four-cylinder engine was actually the  
smallest production 4-cylinder engine  
in the world at that time. The pistons  
are roughly the size of pharmacy pill  
bottles, and it had 4 carburetors.
