[PDF] Introduction to Aerospace Materials By Adrian P ...

The author mentioned in the introduction that "Students should be aware that in the long end, decisions made within the field of aerospace structures and materials are often dictated by these soft (safety, manufacturability, availability, and cost) considerations rather than hardcore engineering (solid material physics, and structural analysis)"; This is not an accurate statement because engineering design in any field, not only aerospace industry, consider 'hard/soft' cores in the design ...
