Neuraltherapie

Neural Therapy - A Western science-based alternative to technology-driven medicine - For more than 70 years, neural therapy has been used by German physicians to identify and treat the underlying cause of pain and illness, from migraine to irritable bowel syndrome. Its success is based on finding and treating foci of electrophysiological instability known as interference fields.

---

Neural Therapy - What is Neural Therapy?

Neural therapy is a form of alternative medicine in which local anesthetic is injected into certain locations of the body in an attempt to treat chronic pain and illness.. There is no good evidence that the therapy works and it carries some risk; it has not been found to be of overall benefit.

Neuraltherapie ist eine therapeutische und gleichzeitig diagnostische Methode, die sich f ü r die Behandlung von vielen akuten und chronischen gesundheitlichen St ö rungen eignet. Wo herk ö mmliche Therapien versagen, ist Neuraltherapie oft die letzte Rettung. Theoretisch kann sie bei sehr vielen Krankheiten und Symptomen hilfreich sein.
