Never Eighteen Megan Bostic

Never Eighteen is a quick read. It's just over 200 pages, and I literally read it in about three spanned out hours. It's a sad novel, meant to tug on your emotions. It will make you fall deeply in love and then rip it out from underneath you. It's a common story, and versions of it have been heard a million times, but it was sweet, sad, and romantic nevertheless.

We were given the assignment to read Megan Bostic's Never Eighteen, and at first when our teacher described the general idea of the plot I thought that I would be bored by this book. But once I started, I realized that I was very, very wrong. I couldn't put it down, I had to see what Austin would do next and how things would turn out with Kaylee... there were just enough sub-plots to keep me ...

Relates the complicated friendship of a teenaged girl, her best friend, her best friend's boyfriend, and a young heart transplant recipient.

The oceans stopped working before Willo was born, so the world of ice and snow is all he's ever known. He lives with his family deep in the wilderness, far from the government's controlling grasp. Willo's survival skills are put to the test when he arrives home one day to find his family gone. It could be the government; it could be scavengers--all Willo knows is he has to find refuge and his family. It is a journey that will take him into the city he's always avoided, with a girl who needs his help more than he knows. S.D. Crockett on narrative voice and an especially cold winter: What was your inspiration for After the Snow? Well, apart from the unbelievably cold winter during which I was writing—in an unheated house, chopping logs and digging my car out of the snow; I think much of the inspiration for the settings in After the Snow came from my various travels. In my twenties I worked as a timber buyer in the Caucasus Mountains of southern Russia, and that work led to travels in Eastern Europe and Armenia. As soon as I step off the plane in those places it smells like home. It may sound strange to say, when After the Snow is set in Wales, but really the practical dilemmas in the book come directly from places I've been, people I've lived with, and the hardships I've seen endured with grace and capability. I was in Russia not long after the Soviet Union collapsed and I've seen society in freefall. Without realizing it at the time I think those experiences led me to dive into After the Snow with real passion. What would western civilization look like with a few tumbles under its belt? What would happen if the things we took for granted disappeared? I wanted to write a gripping story about that scenario, but hardly felt that I was straying into fantasy in the detail. What do you want readers to most remember about After the Snow? We all have the capacity to survive, but in what manner? What do we turn to in those times of trouble? Those are the questions I would like people to contemplate after reading After the Snow. How did Willo's unique voice come to you? Willo's voice appeared in those crucial first few paragraphs. After that it just grew along with his world and the terrible situations that arise. I think his voice is in all of us. We don't understand, we try to make good—maybe we find ourselves. How did you stay warm while writing this novel? I banked up the fire—and was warmed by hopes of spring.

Trisha Thompson and her best friend Christina are having a great senior year. Trisha and her boyfriend, Cody, are making plans to attend Indiana University together in the fall, while Christina has already received a scholarship to the University of Vermont. But suddenly their lives change one night when Tucker is driving the four home from an away basketball game. When his car hits a patch of black ice and overturns, Tucker walks away with barely a scratch, but Trisha is injured, Cody is in a coma, and Christina is dead. As plague ravages the overcrowded Earth, observed by a ruthless lunar people, Cinder, a gifted mechanic and cyborg, becomes involved with handsome Prince Kai and must uncover secrets about her past in order to protect the world in this futuristic take onthe Cinderella story.

This extraordinary book explains the engine that has catapulted the Internet from backwater to ubiquity—and reveals that it is sputtering precisely because of its runaway success. With the unwitting help of its users, the generative Internet is on a path to a lockdown, ending its cycle of innovation—and facilitating unsettling new kinds of control. iPods, iPhones, Xboxes, and TiVos represent the first wave of Internet-centered products that can't be easily modified by anyone except their vendors or selected partners. These " tethered appliances " have already been used in remarkable but little-known ways: car GPS systems have been reconfigured at the demand of law enforcement to eavesdrop on the occupants at all times, and digital video recorders have been ordered to self-destruct thanks to a lawsuit against the manufacturer thousands of miles away. New Web 2.0 platforms like Google mash-ups and Facebook are rightly touted—but their applications can be similarly monitored and eliminated from a central source. As tethered appliances and applications eclipse the PC, the very nature of the Internet—its " generativity, " or innovative character—is at risk. The Internet's current trajectory is one of lost opportunity. Its salvation, Zittrain argues, lies in the hands of its millions of users. Drawing on generative technologies like Wikipedia that have so far survived their own successes, this book shows how to develop new technologies and social structures that allow users to work creatively and collaboratively, participate in solutions, and become true " netizens. "

" Chemo, radiation, a zillion surgeries, watching my mom age twenty years in twenty months . . . if that ' s part of the Big Dude ' s plan, then it ' s pretty obvious, isn ' t it? Enough said. " Smart-mouthed and funny, sometimes raunchy, Richard Casey is in most ways a typical seventeen-year-old boy. Except Richie has cancer, and he's spending his final days in a hospice unit. In this place where people go to die, Richie has plans to make the most of the life he has left. Sylvie, the only other hospice inmate under sixty, has a few plans of her

own for Richie. What begins as camaraderie quickly blossoms into real love, and this star-crossed pair is determined to live on their own terms, in whatever time remains.
