ALL ROYALTIES EARNED TILL DEC. 25TH WILL GO TO VICTIM FAMILIES OF CHAPECO', BRAZIL... A memoir of risk-taking, poignancy and redemption, On the Edge recounts University of Washington grad, Stephen Murphy's odyssey east to Harvard Business School. Feel his pain as his hopes come crashing down. Watch him struggle through Vietnam and Pacific typhoons, but find his way to Columbia Business School and later Brazil. How does he live in an infamous favela in Rio de Janeiro, as an international banker, or end up with Hollywood studios, fighting pirates? Or how does he run the gauntlet in both Bush administrations inside the Beltway, yet keep his cool? In twelve chapters focused on "turning points of life," On the Edge: An Odyssey gives inspiration to professionals to land on their feet despite harsh circumstance. "On the Edge seeks to recollect the author's life with large strokes, while zooming in on specific events that stand out. However, it is not a story told without purpose. Rather, the author's life story is shown to be one of seeking his *raison d'etre*... finally coming to find meaning in faith and in connecting peoples of the Americas. This book was a great read, and I am thankful that you have decided to share your adventures and lessons learned with many readers." --CreateSpace, Jon, editor "Stephen Murphy has indeed taken paths less travelled. This is a frank and personal discussion of success, failure and lessons learned by a Seattle boy who became a global wanderer." -- Christopher T. Bayley, author, Seattle Justice; chair, Stewardship Partners; former King County Prosecuting Attorney.

In this personal narrative, former couch potato Michael Bane begins an incredible journey that takes him from the abyss to the highest, storm-swept mountains and, ultimately, changes his life forever. Bane's insights have come from participating in such high-risk sports as mountaineering and cave diving.

The author relates his adventures participating in some of the world's most extreme and dangerous sporting activities, including swimming in shark-infested waters in the first leg of the Escape from Alcatraz triathlon

"Me and E: A Baseball Odyssey is a reflection on parenting a highly skilled, nationally-ranked and difficult baseball prodigy, told through the author's eyes as he witnessed and participated in the successes and failures of his son playing baseball and growing up in Central Florida. It deals with the changing world of competitive youth sports, over-involved parents, fanatical coaches, the hypocrisies inherent in high school athletics, the college recruiting process and how we teach our kids to grow up and become decent human beings - despite ourselves. It involves well-known sports figures as well as local sports icons with traits and characteristics that everyone will recognize. It's a book about flawed parenting, about living vicariously through a gifted child and learning, finally, that being a good father is as much about letting go as it is about being there. Call it Moneyball meets Everything I Know I Learned in Kindergarten.

Like many of us, Mark Hertsgaard has long worried about the declining health of our environment. But in 1991, he decided to act on his concern and investigate the escalating crisis for himself. Traveling on his own dime, he embarked on an odyssey lasting most of the decade and spanning nineteen countries. Now, in *Earth Odyssey*, he reports on our environmental predicament through the eyes of the people who live it. From the gilded boardrooms of Paris to the traffic-clogged streets of Bangkok, we travel from the deep human past to our still unfolding future. Much of the story revolves around people like Zhenbing, Hertsgaard's charismatic interpreter in China, whose desire to escape poverty leaves him indifferent to his country's horrific air and water pollution. We also meet Garang, a proud Dinka tribesman whose response to Sudan's famine shows the difficulty of building an environmentally sustainable future without bridging the gap between rich and poor. Drawing on interviews with Václav Havel, Al Gore, Jacques Cousteau, and numerous other prominent figures, Hertsgaard offers fresh insight into such complex issues as humanity's growing addiction to the automobile, the insidious spread of nuclear technology, and the inevitable tension between unfettered capitalism and the health of the biosphere. *Earth Odyssey* is a vivid, passionate narrative about one man's journey around the world in search of the answer to the most important question of our time: Is the future of the human species at risk? Combining first-rate reportage with irresistible storytelling, Mark Hertsgaard has written an essential--and ultimately hopeful--book about the uncertain fate of humankind.

Professor Luke Shannon gets upbraided by a Cuban exile at Seattle University. Thirty years ago, Luke didn't keep his promise to Ana Sanchez, a high-profile dissident and his former lover. Her uncle was Cuba's deceased Hero of the Republic, General Arnaldo Ochoa. Luke promised to tell his story to the world. Luke finds out that Ana is still alive but in failing health. In Miami, he catches Cubana Aviacion's last flight to Havana. Then COVID-19 hits Cuba in 2020. All bets are off if Luke will prevail. His odyssey takes him through police interrogations, steamy salsa clubs and tropical storms. The Inspector, tipped off by Cuban intelligence, is intent on taking him down. Whom can Luke trust? Startling news slaps him in the face. Now he must escape. Can Luke keep his promise or will he die trying? Note: The demise of General Arnaldo Ochoa is a topic of debate among expatriates and cognoscenti of Cuba. Ochoa's military campaigns in Africa are still taught at the U.S. and Russian War Colleges. This book is based on 65 interviews of Cubans in-country and from exiles abroad. Its places and names have been changed to protect the innocent.
