Engage students in science through current environmental issues. Essential Environment: The Science Behind the Stories, 6th Edition by Jay Withgott and Matt Laposata, is the #1 book in the introductory environmental science market and known for its student-friendly narrative style, integration of real stories and case studies, and presentation of the latest science and research. The 6th edition features new opportunities to help students see connections between integrated case studies and the science in each chapter, and highlights sustainable solutions that have successfully helped address environmental problems. Coverage of topical issues upholds the text’s hard-won reputation for currency, using the most recent data available and focusing on emerging issues. Updates include new features such as Success Stories that demonstrate positive solutions to address local, national, and global environmental problems. New Case Study Video Tours take students on a virtual tour of the locations featured in each chapter’s Central Case Study and can be assigned in Mastering Environmental Science. The succinct and affordable 6th Edition is streamlined with updated coverage and carefully crafted to make the text readable, informative, and engaging. For courses in introductory environmental science. Pearson eText allows educators to easily share their own notes with students so they see the connection between their reading and what they learn in class -- motivating them to keep reading, and keep learning. Portable access lets students study on the go, even offline. And, student usage analytics offer insight into how students use the eText, helping educators tailor their instruction. NOTE: This ISBN is for the Pearson eText access card. For students purchasing this product from an online retailer, Pearson eText is a fully digital delivery of Pearson content and should only be purchased when required by your instructor. In addition to your purchase, you will need a course invite link, provided by your instructor, to register for and use Pearson eText.

“Your World, Your Turn” is not just a subtitle, it’s a philosophy. Jay Withgott wants students to feel empowered, to feel that their actions can make a difference -- from measuring their own ecological footprint to understanding the impact of society upon the environment. - Back cover.

For courses in introductory environmental science. Help Students Connect Current Environmental Issues to the Science Behind Them Environment: The Science behind the Stories is a best seller for the introductory environmental science course known for its student-friendly narrative style, its integration of real stories and case studies, and its presentation of the latest science and research. The 6th Edition features new opportunities to help students see connections between integrated case studies and the science in each chapter, and provides them with opportunities to apply the scientific process to environmental concerns. Also available with Mastering Environmental Science Mastering(tm) Environmental Science is an online homework, tutorial, and assessment system designed to improve results by helping students quickly master concepts. Students benefit from self-paced tutorials that feature personalized wrong-answer feedback and hints that emulate the office-hour experience and help keep students on track. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts. Note: You are purchasing a standalone product. Mastering(tm) Environmental Science does not come packaged with this content. Students, if interested in purchasing this title with Mastering Environmental Science, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and Mastering Environmental Science, search for: 0134145933 / 9780134145938 Environment: The Science behind the Stories Plus Mastering Environmental Science with eText -- Access Card Package Package consists of: 0134204883 / 9780134204888 Environment: The Science behind the Stories Plus Mastering Environmental Science with eText -- ValuePack Access Card -- for Environment: The Science behind the Stories Environment: The Science behind the Stories, 6th Edition is also available via Pearson eText, a simple-to-use, mobile, personalized reading experience that lets instructors connect with and motivate students -- right in their eTextbook. Learn more.

For introductory courses in Environmental Science, Environmental Studies, and Environmental Biology. Equipping Learners to Understand the Roles of Science, Sustainability, and Stewardship The 13th Edition of Environmental Science: Toward a Sustainable Future retains its current content and memorable themes of Science, Sustainability and Stewardship while expanding on the reader-friendly approach with built-in tools that make Wright/Boorse a bestseller. Presenting the most current and relevant Environmental Science issues and research along with new Concept Check questions and Understand the Data questions, the text and Mastering Environmental Science work together to help readers understand the science behind environmental issues. Also available with Mastering Environmental Science Mastering™ Environmental Science is an online homework, tutorial, and assessment system designed to improve results by helping students quickly master concepts. Students benefit from self-paced tutorials that feature personalized wrong-answer feedback and hints that emulate the office-hour experience and help keep students on track. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts. For the 13th Edition, Mastering Environmental Science has been significantly updated to include new video assignments that expose students to real environmental issues and new coaching activities that help students build science literacy skills. Note: You are purchasing a standalone product; Mastering Environmental Science does not come packaged with this content. Students, if interested in purchasing this title with Mastering Environmental Science, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and Mastering Environmental Science, search for: 013394591X / 9780133945911 Environmental Science: Toward a Sustainable Future Plus Mastering Environmental Science with eText -- Access Card Package Package consists of: 0134011279 / 978013401127 Environmental Science: Toward a Sustainable Future 0134245601 / 9780134245607 Mastering Environmental Science with Pearson eText -- ValuePack Access Card -- for Environmental Science: Toward a Sustainable Future Environmental Science: Toward a Sustainable Future, 13 th Edition is also available via Pearson eText, a simple-to-use, mobile, personalized reading experience that lets instructors connect with and motivate students — right in their eTextbook. Learn more.

By emphasizing the memorable themes of science, sustainability and stewardship, this textbook helps readers understand the science behind environmental issues and what they can do to build a more sustainable future.

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value--this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson’s MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a Course ID, provided by your instructor, to register for and use Pearson’s MyLab & Mastering products. For introductory courses in Environmental Science, Environmental Studies, and Environmental Biology. Equipping Learners to Understand the Roles of Science, Sustainability, and Stewardship The Thirteenth Edition of Environmental Science: Toward a Sustainable Future retains its current content and memorable themes of Science, Sustainability and Stewardship while expanding on the student-friendly approach with built-in study tools that make Wright/Boorse a bestseller. Presenting the most current and relevant Environmental Science issues and research along with new Concept Check questions and Understand the Data questions, the text and MasteringEnvironmentalScience work together to help students understand the science behind environmental issues. Also available with MasteringEnvironmentalScience™ MasteringEnvironmentalScience is an online homework, tutorial, and assessment system designed to improve results by helping students quickly master concepts. Students benefit from self-paced tutorials that feature personalized wrong-answer feedback and hints that emulate the office-hour experience and help keep students on track. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts. For the Thirteenth Edition, MasteringEnvironmentalScience has been significantly updated to include new video assignments that expose students to real environmental issues and new coaching activities that help students build science literacy skills.

This loose-leaf, three-hole punched version of the textbook gives students the flexibility to take only what they need to class and add their own notes--all at an affordable price. For Introductory Environmental Science Courses (Non-Majors). Build and practice skills needed to understand complex environmental issues The Environment and You, 3rd Edition, by Norm Christensen, Lissa Leege, and new co-author Justin St. Juliana, gives today’s generation of students reason to be hopeful about environmental challenges. The authors draw on their pedagogical expertise and classroom experience to help students establish a reliable foundation in science. The unbiased approach of the text equips students with important analytical and quantitative reasoning skills, including how to ask questions to seek information required to develop informed opinions. The authors strive to inspire students, by connecting the course to choices they can make as citizens and demonstrating the role science can play in influencing personal, community, and global environmental issues. With the 3rd Edition, new features include You Decide which presents complex environmental issues and invites students to take a position and consider the results of their position. New Misconceptions address common student misunderstandings related to matters of scientific fact and tackle them head on. The textbook is closely integrated with Mastering(tm) Environmental Science to support instructors and students with a wide variety of engaging assignments and activities.
