In a consideration of a vast scope of themes such as ghazal as a form of non-conformist poetry, Hispano-Arabic connections with English poetry, Syed Ahmad Khan's role in the Urdu-Hindi controversy, and madrasa education and its contemporary criticism, the volume forms an important compliment (and corrective) to much of the current writings on the various issues.

A fresh, exciting, funny, fabulous take on New Adult Paranormal about an enterprising matchmaker...and her paranormal clientele. She started out as just an ordinary university student, but the sudden and unexpected inheritance of an unused warehouse on the industrial side of town throws Shalini's life plan askew. Drawing from her strengths, she decides to set up a matchmaking business, helping the lonely to find a soulmate. But something unusual happens, something unexpected:her first client doesn't fit the regular profile. Victor is dark, handsome, emotionally available...and a vampire. Suddenly Shalini's already disrupted world becomes a place where rules no longer apply. She must learn to adapt to her new occupation of finding The One for a prospective clientele of vampires, shape/shifters, and other beings more likely to bite first and ask questions later. And there are those out there who are less than happy with her entrepreneurial spirit. But just as Shalini begins to think she can cope with anything, she discovers that she has bitten off more than she can chew, and played with powerful forces that have the potential to not only destroy the Lost Souls Dating Agency...but Shalini herself.

This book, together with its companion volume Design Techniques for Engine Manifolds - Wave Action Methods for IC Engines, reports the significant developments that have occurred over the last twenty years and shows how mature the calculation of one-dimensional flow has become. In particular, they show how the application of finite volume techniques results in more accurate simulations than the 'traditional' Method of Characteristics and gives the further benefit of more rapid and more robust calculations. CONTENTS INCLUDE: Introduction Governing equations Numerical methods Future developments in modelling unsteady flows in engine manifolds Simple boundaries at pipe ends Intra-pipe boundary conditions Turbocharging components The application of wave action methods to design and analysis of flow in engines.

One Perfect Lap is the history of the World Time Attack Challenge, held since 2010 in New South Wales, Australia. The book traces the history of the event back to the 2008 Super Lap events, looks at the tracks used, the famous cars and other exhibitions featured at the event, as told by CEO Ian Baker - the man who made Time Attack a truly global sport.

Based on an author's true story of domestic violence, Escape from the Mad Man was created to help you explain to your children why you took them to a women's shelter or other safe haven. Your first nights of freedom can be chaotic. Your children will have many urgent questions. This book provides you with the familiar form of a picture book to help answer those questions and offer reassurance at a very stressful time. The illustrations do not depict acts of violence.

Never Far Away is a short story and resource for the parent who has a child that doesn't like to separate from them when time for school or work. It has illustrative pictures and content for the parent and child to interact before they go about their day.
