YOU CANT MAKE THIS STUFF UP! Here is a hilarious collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-letter word: "DUH!" \* The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . . GRANDMOTHER OF EIGHT MAKES HOLE IN ONE \* The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH \* The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . . DRUNK GETS NINE MONTHS IN VIOLIN CASE \* The woman who couldn't stand the discomfort of having a callus on her right foot, so she blew off her big toe with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.

This practical and accessible book focuses on the Written Exercise, which forms a key part of the Police Recruit Assessment Process. The book starts with an overview of the principles of completing a written exercise. It gives clear information on issues of grammar, spelling and punctuation, with examples of common mistakes and questions to check understanding. Full written exercises, in the form of candidate's instructions and the various associated documents, provide essential practice and the intentions of each are explained, identifying the core competencies being tested.

DIVHighly informative and exhaustive study presents an exceptional collection of cases examining such topics as warfare as the business of one sex, religion as a cause of war, and war for the sake of glory. /div

In the third book of the series, Bartimaeus, Nathaniel, and Kitty must test the limits of this world, question the deepest parts of themselves -- and trust one another if they hope to survive. Includes a preview chapter from The Ring of Solomon, a Bartimaeus novel.

A warrior woman and her dark twin are destined to remake the world in this [powerful] tale, the first in a trilogy by a World Fantasy Award winner (Newsweek). Legend foretold the child named Jenna, who was three-times orphaned before she could crawl, a fate that would leave her in the hands of women who worshipped the benevolent goddess Great Alta. In this world without men, Jenna comes of age, learning quickly the skills of close combat. But her most powerful gift lies elsewhere: a mirror sister who emerges only in the darkness;a twin named Skada and shares the soul of the young, white-haired warrior who might well be the goddess reborn. But if Jenna is, in truth, the one whose coming is awaited, there is cause for great alarm among those who rule the Dales, for the prophecy speaks of upheaval and change, and a devastating end of all things. An incomparable world-builder and one of America's premier fantasists, the remarkable Jane Yolen begins a three-part saga as inventive, intelligent, and exciting as anything that has ever been produced in the literature of the fantastic. Brilliantly contrasting the true story of Jenna with the later myths, poetry, and so-called scholarship that her coming engendered, Yolen creates a culture as richly imagined as those found in the acclaimed novels of Ursula K. Le Guin. A truly magnificent work, Sister Light, Sister Dark takes fantasy fiction to wondrous places it has never gone before.

For those of you who don't know me yet, I'm Rivanah Bannerjee, a Kolkataan trying to find her footing in Mumbai. Even though I'm currently in a relationship with a great guy, I can't help but miss my ex-boyfriend despite knowing that he cheated on me. But that's the least of my worries. The stranger has gone missing since the police tried to nab him unsuccessfully. Where is he? What does he want from me? Why did he come into my life in the first place? Will he ever contact me again? These and many more questions continue to torment me every day. I'm desperate for the stranger to come back to me, knowing full well that he may destroy me forever. But then that's the sexiest thing I have ever known about someone. With every revelation, it seems the truth is far more twisted than Rivanah can imagine. Wickedly plotted, All Yours, Stranger!Novoneel Chakraborty's gripping follow-up to his hugely popular Marry Me, Stranger!will keep you on the edge of your seat until the last page. This is Book Two of the Stranger Trilogy

LINUX OPERATIONS AND ADMINISTRATION introduces readers to Linux operations and system administration through a unified installation, using virtual machines. This text is more effective than those that take a professional approach because it eliminates confusion from working with differing hardware configurations, while allowing users to test interoperability between Linux and Windows. Detailed, yet reader-friendly, Linux Operations and Administration makes it easy to learn Linux and practice it with helpful in-text features like learning objectives and key terms, as well as items for self assessment such as review questions, hands-on activities, and case projects. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Clinical Pathology Board Review covers all of the major subject areas of clinical pathology, presenting you with an essential study guide for certification or recertification. Designed as a companion to Anatomic Pathology Board Review, 2nd Edition, this brand-new medical reference book will be a welcome resource for pathology residents and practicing pathologists alike. Understand all of the major subject areas of clinical pathology tested on the Clinical Pathology board exam, including chemistry, hematology, coagulation, microbiology, immunology (including HLA testing), transfusion medicine (including therapeutic apheresis), cytogenetics, and molecular diagnostics. Prepare for the boards with help from multiple-choice questions offered in a format that mimics that of the actual test. Effectively grasp key concepts with questions that integrate various areas of clinical pathology, as well as questions that bridge concepts in clinical pathology with those in anatomic pathology. Understand why an answer is correct or incorrect with help from brief explanations accompanying each. Review key concepts in laboratory medicine, correlate them to the associated clinical or laboratory information, and apply them to the diagnosis and management of human disease. Designed as a companion to Anatomic Pathology Board Review, 2nd Edition (ISBN: 9781455711406).

This book is ideal for use in a one-semester introductory course in physical chemistry for students of life sciences. The author's aim is to emphasize the understanding of physical concepts rather than focus on precise mathematical development or on actual experimental details. Subsequently, only basic skills of differential and integral calculus are required for understanding the equations. The end-of-chapter problems have both physiochemical and biological applications.

This new edition of an established textbook provides an introduction to the practice and principles of relational databases. It emphasises data modelling and the consequent construction of a database and reflects the importance of Structured Query Language (SQL). It contains new material on web-based databases and MySQL. There is increased coverage of the differences between Access and Oracle in SQL. Case studies and sample data feature on an accompanying web-sites.
