This list of ZF transmissions details those automotive transmissions created by the German ZF Friedrichshafen AG engineering company. There are two fundamental types of motor vehicle transmission: Manual – the driver has to perform each gear change (i.e., the driver is required to shift gears) Automatic – once placed in drive (or any other 'automatic' selector position), it selects the ...

Compared to manual transmissions, fuel consumption is reduced and the service life of the clutch is also extended many times over. Typical for the AS Tronic family: High-performance gears with helical teeth minimize noise emissions and as a result, predestine the transmissions for use in the city. The reduced CO and brake dust emissions also contribute to this. Technical Information ...
